

Skylights

J.A. Plast provides a number of different solutions for bringing daylight to the roof space.

① Skylight

Top-hung skylight manufactured from HIPS and polycarbonate with a frame of plywood. DA1 opens outward giving access to the roof.

② Clear Tile Sheet

Transparent polycarbonate sheets placed sporadically or in a band on the roof improve the amount of daylight in agricultural or industrial buildings.

③ Clear Tile Single Tile

Mixing clear tiles with the rest of the roofing material is a simple way of bringing daylight to the roof space and similar places.

④ Clear Tile Multiple Tiles

Clear tiles with up to 8 modules bring even more daylight to the roof space.

Roofing accessories supplied from J.A. Plast match roof profile, colour and surface 100%. The current product list and further information can be found on our homepage, www.japlast.com.
