

Sanitary Vent HV15x15 ISO

Application

The HV15x15 ISO vent from J.A. Plast is a sanitary vent. It is ideal for ventilation outlet from living quarters like kitchen, bathroom, tumbler, laundry room or as stack pipe.

The HV15x15 ISO is an excellent choice in connection with heat recovery systems or other types of mechanical ventilation.

The vent is supplied with an integrated pipe insulating the vent to the top for efficient outlet of humid air - preventing condensation from causing damage. The insulated pipe comes with an adapter Ø160 mm.

Please refer to national standards.

- For pitched roofs 15° - 45°
- Can be manufactured for any profile
- Insulated pipe installed from factory

Design

The HV15x15 ISO is supplied installed on a base plate shaped to fit the roof profile 100% - easily installed with the rest of the roofing material and always following the roof pitch.

The insulated pipe is designed to go through the underlay at a perpendicular angle to facilitate installation and avoid cutting in the batten beneath.

Colour and Surface

Special coloured, glossy or structured with sand or granules the vents can be supplied with a 100% colour and surface match individually adjusted to each roofing material.

Materials

Vent and adapters are manufactured from HIPS (High Impact Polystyrene).

Insulated pipe is manufactured from EPS.

Handling

Keep in original packaging during transport.

Do not wrap and expose to heavy load during transport.

Remove plastic bag before placing in sunlight.

Accessories
