

# Sanitary Vent LV75

## Application

The cowl vent LV75 from J.A. Plast is a discreet ventilation solution and suitable as ventilation outlet from living quarters like kitchen, bathroom or as stack pipe.

*Please refer to national standards.*

- For pitched roofs 15° – 60°
- 7,500 mm<sup>2</sup> ventilation area
- Can be manufactured for any profile

## Design

The LV75 design diverts rain water around the vent. It has a built-in protective grille to keep out insects and drifting snow. The vent is supplied installed on a base plate shaped to fit the roof profile 100%. Easily installed with the rest of the roofing material and always following the roof pitch, the vent presents a nicely integrated solution.

The adapter allows for connection of pipe Ø110 mm and Tubivent.

## Colour and Surface

Special coloured, glossy or structured with sand or granules the vents can be supplied with a 100% colour and surface match individually adjusted to each roofing material.

## Materials

Vent and adapter are manufactured from HIPS (High Impact Polystyrene).

The Tubivent is manufactured from PP (PolyPropylene).

## Handling

Keep in original packaging during transport.

Do not wrap and expose to heavy load during transport.

Remove plastic bag before placing in sunlight.

## Accessories

LV75 with adapter for connection Ø 110 mm

*Roofing accessories supplied from J.A. Plast match roof profile, colour and surface 100%. The current product list and further information can be found on our homepage, [www.japlast.com](http://www.japlast.com).*
